

## Question:

Sandra's neighbor gives her a basket of 9 eggs every time she babysits their daughter. To make a Spanish flan she needs 3 eggs. If Sandra has been tasked to make 15 Spanish flans for her school fundraiser how many times does Sandra have to babysit?

## Reasoning + Answer:

`<think>` She needs a total of  $15 \times 3 = 45$  eggs for 15 Spanish flans. Since 9 is  $3 \times 3$ , then for 45 eggs, she needs to get  $45 / 3 = 15$  sets of 3 eggs. Hence, she needs to babysit 15 times. `</think>` `<answer>` 15 `</answer>`
