

Question:

Ryan plants 2 flowers a day in his garden. After 15 days, how many flowers does he have if 5 did not grow?

Reasoning + Answer:

```
<think>Ryan plants 2 flowers a day for 15 days so he has 15 * 2 = 30 flowers. But he didn't have 5 flowers, he didn't grow those ones so he had only 30 - 5 = 25 </think><answer>25</answer>
```
