

## Question:

Toula went to the bakery and bought various types of pastries. She bought 3 dozen donuts which cost \$68 per dozen, 2 dozen mini cupcakes which cost \$80 per dozen, and 6 dozen mini cheesecakes for \$55 per dozen. How much was the total cost?

## Reasoning + Answer:

```
<think>Toula paid  $3 * 68 = 204$  for the donuts Toula paid  $2 * 80 = 160$  for the cupcakes  
Toula paid  $6 * 55 = 330$  for the cheesecakes The total cost was  $204 + 160 + 330 = 694$  </  
think><answer>694 </answer>
```
