Question:

Janet's ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for $2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think>Janet lays 16 eggs a day and eats 3 of them for breakfast and bakes 4 for her friends meaning she sells 16 - 3 - 4 = 9 at the market every day She gets 2 dollars per egg she sells meaning she makes 2 * 9 = 18 </think>
