Question:

Kelian has two recipes for preparing dishesone having 20 instructions and the second one having twice as many instructions as the first one. How many instructions does Kelian have to read to prepare the two dishes?

Reasoning + Answer:

<think>The second recipe has twice as many instructions as the first one, that is $2 * 20 = 40$ instructions. To prepare the two dishes, Kelian has to read $20 + 40 = 60$ instructions. </think>
