

Question:

The feedback loop in men which regulates the production of sex hormones includes all but which of the following?

Answer Choices:

- A. follicle-stimulating hormone
- B. oxytocin
- C. pituitary gland
- D. hypothalamus
- E. gonadotropin-releasing hormone
- F. luteinizing hormone
- G. testosterone

Reasoning + Answer:

<think>
the feedback loop in men that regulates the production of sex hormones includes FSH (follicle-stimulating hormone), LH (luteinizing hormone), and T (testosterone). Oxytocin, hypothalamus, and pituitary gland are not directly involved in the hormone production process.
oxytocin, hypothalamus, and pituitary gland are involved in other functions, but not in the specific loop that regulates sex hormones.
</think>
<answer>
B</answer>
