

Question:

A candle melts by 2 centimeters every hour that it burns. How many centimeters shorter will a candle be after burning from 1:00 PM to 5:00 PM?

Reasoning + Answer:

`<think>` A candle melts by 2 centimeter every hour Now , the candle is burning from 1 : 00 PM to 5 : 00 PM , so it is burning for 4 hours So , total reduction in height will be 2 centimeters per hour * 4 hours = 8 centimeters Therefore , the candle will be 8 centimeters shorter `</think>`

`<answer>` 8 `</answer>`
