

Question:

Tim decides to cancel his cable subscription and get streaming services. He gets Netflix for \$10 a month. Hulu and Disney Plus normally cost \$10 a month each but he saves 20% for bundling. How much money does he save by cancelling his \$60 cable package?

Reasoning + Answer:

he pays $10 + 10 + 10 = 30$ per month for cable subscription he will save $30 - 10 = 20$
