

Question:

Buford writes many checks every year. Once per month he writes a check to pay the electric bill. He also writes a check every month for the gas bill. Twice per month he writes a check to the church. And quarterly, he writes a check to the pest and lawn service. How many checks does Buford write per year?

Reasoning + Answer:

<think>the number of electric bills is 12 / 12 = 1 the number of gas bills is 12 / 12 = 1 the number of church checks is 2 * 12 = 24 the number of pest and lawn service is 4 total is 1 + 1 + 24 + 4 = 30 </think><answer>30</answer>
