

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think>
16 eggs are laid per day , she eats 3 for breakfast , so $16 - 3 = 13$ eggs left
She bakes 4 eggs for her friends , so $13 - 4 = 9$ eggs left
She sells 9 eggs at 2 dollars each , so $9 * 2 = 18$ dollars
</think>
<answer> 18 </answer>
