

Question:

Raymond and Samantha are cousins. Raymond was born 6 years before Samantha. Raymond had a son at the age of 23. If Samantha is now 31, how many years ago was Raymond's son born?

Reasoning + Answer:

<thinking process >

Step 1 : We know that Raymond and Samantha are cousins , and Raymond was born 6 years before Samantha .

Step 2 : Samantha is now 31 years old . So , Samantha's birth year is 31 years ago from now .

Step 3 : Since Raymond was born 6 years before Samantha , Raymond was born at age (31 - 6) = 25 years ago .

Step 4 : Raymond had a son at the age of 23 . So , the son was born when Raymond was 23 years old .

Step 5 : We know Raymond was born 25 years ago (from step 3), so when he was 23 , that would be (25 - 23) = 2 years ago .

Step 6 : Therefore , Raymond's son was born 2 years ago .

</thinking process >

< answer > 2 </answer >
