

Question:
Bivalent meningococcal vaccine is ?
Answer Choices:

- A. A Y
- B. A C
- C. C y
- D. A W-I35

Reasoning + Answer:

<think> To determine the correct bivalent meningococcal vaccine , I need to understand what "bivalent" means in this context . Bivalent refers to a vaccine that protects against two specific strains of a particular pathogen . In this case , it's a meningococcal vaccine , which targets the meningococcus bacterium . </think><answer> A C </answer>
