

Question:

What are the minimum and maximum possible values of Glasgow Coma Score?

Answer Choices:

- A. Minimum = 3, Maximum = 15
- B. Minimum = 0, Maximum = 13
- C. Minimum = 0, Maximum = 15
- D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think> in the Glasgow Coma Scale, the minimum score is 3, which is represented by no eye movement, no verbal response, and no motor response, and the maximum score is 15, which is represented by all three responses (eye movement, verbal response, and motor response) being fully present </think> <answer> Minimum = 3, Maximum = 15 </answer>
