

Question:

What are the minimum and maximum possible values of Glasgow Coma Score?

Answer Choices:

- A. Minimum = 3, Maximum = 15
- B. Minimum = 0, Maximum = 13
- C. Minimum = 0, Maximum = 15
- D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think> Glasgow Coma Score (GCS) is a method of assessing the level of consciousness in an unconscious patient. It ranges from 3 to 15, with 15 being the highest level of consciousness. The minimum score is 3, which is assigned when the patient has no response to stimuli. The maximum score is 15, which is assigned when the patient opens fully awake eyes and obeys commands. </think><answer> Minimum = 3, Maximum = 15 </answer>
