The Glasgow Coma Score (GCS) assesses a patient's eye opening , verbal response , and motor response . The score ranges from 3 to 15 , with lower scores indicating more severe brain injury .

- Minimum possible value : 3 (indicating deep coma with no response to stimuli in all three categories)
- Maximum possible value : 15 (indicating full consciousness with responsive responses in all three categories)

Therefore , the correct answer is the range from 3 to 15 .
