

Question:

Charisma works for 8 hours every day. She has a timer to remind her to get up and walk for 5 minutes every hour she's at work. After 5 days at the office, how many minutes has she walked?

Reasoning + Answer:

every 8 hours = 4 times, 5 minutes = 1 min 30 sec, 4 times = 4 walk, 1 min 30 sec walk = 90 minutes,
90 minutes per walk * 4 walk = 360 minutes
