

Question:

Toula went to the bakery and bought various types of pastries. She bought 3 dozen donuts which cost \$68 per dozen, 2 dozen mini cupcakes which cost \$80 per dozen, and 6 dozen mini cheesecakes for \$55 per dozen. How much was the total cost?

Reasoning + Answer:

`<think>`
Donuts cost $3 * 68 = \$204$. Mini cupcakes cost $2 * 80 = \$160$. Mini cheesecakes cost $6 * 55 = \$330$.
Total cost is $204 + 160 + 330 = \$694$.
`<answer> 694 </answer>`
