

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

Let 's solve this problem step-by-step :

<think>

Ducks lay 16 eggs

Eats 3 × 7 = 21 / week

Bakes 4 × 7 = 28 / week

So total eaten = 21 + 28 = 49 / week

49 ÷ 7 = 7 per day

So 16 − 7 = 9 eggs left to sell

Sells 9 × 2 = \$ 18 per day

</think><answer> 18 </answer>
