

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

Let's solve this problem step-by-step :

<think>

Ducks lay 16 eggs daily

Jan et eats 3 $\hat{=}$ 9 eggs per day

Bakes 4 eggs into muffins daily

So she uses 9 + 4 = 13 eggs per day

Leaving 16 $\hat{=}$ 13 = 3 eggs for selling

Sells 3 $\hat{=}$ 2 = 6 dollars worth of eggs daily

</think><answer> 6 </answer>
