

Question:
Bivalent meningococcal vaccine is ?
Answer Choices:

- A. A Y
- B. A C
- C. C y
- D. A W-135

Reasoning + Answer:

<think> The bivalent meningococcal vaccine is a type of vaccine that protects against two different strains of the meningococcal bacterium . The most common bivalent meningococcal vaccine is the A C vaccine , which protects against serogroups A and C . This vaccine is often recommended for individuals who are at high risk of infection , such as college students , military personnel , and people with certain underlying medical conditions . </think> <answer> B . A C </answer>
