

Question:

Janet's ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think>Shelays 16 eggs per day She eats 3 eggs for breakfast so $16 - 3 = 13$ eggs She uses 4 eggs to bake muffins so $13 - 4 = 9$ eggs She sells the remainder at the market and she sells each egg for 2 dollars so $9 \times 2 = 18$ dollars She makes 18 dollars every day at the market </think><answer>18</answer>
