

Question:

What are the minimum and maximum possible values of Glasgow Coma Score? Answer Choices: A. Minimum = 3, Maximum = 15 B. Minimum = 0, Maximum = 13 C. Minimum = 0, Maximum = 15 D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think>The Glasgow Coma Scale (GCS) is a neurological scale used to measure a person's level of consciousness after a head injury . It consists of three components: eye opening , verbal response , and motor response . The score ranges from 3 to 15 , with 15 being the highest score . The minimum score is 3 , which indicates the worst possible outcome , and the maximum score is 15 , which indicates a fully conscious person . The scores are assigned as follows : Eye opening (1 - 4 points), Verbal response (1 - 5 points), and Motor response (1 - 6 points). The total score is the sum of these three components . </think><answer>A . Minimum = 3 , Maximum = 15</answer>
