

Question:

What are the minimum and maximum possible values of Glasgow Coma Score? Answer Choices: A. Minimum = 3, Maximum = 15 B. Minimum = 0, Maximum = 13 C. Minimum = 0, Maximum = 15 D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think>The Glasgow Coma Scale (GCS) is a neurological scale used to measure a person's level of consciousness after a head injury . It assesses three aspects : eye opening , verbal response , and motor response . The scale is scored from 3 to 15 , with 3 being the lowest score and 15 being the highest score . The minimum possible value is 3 , which indicates a person who is unresponsive and has no eye opening , no verbal response , and no motor response . The maximum possible value is 15 , which indicates a person who is fully awake and alert , with a clear eye opening , appropriate verbal response , and normal motor response . </think><answer> A . Minimum = 3 , Maximum = 15 </answer>
