

Question:

What are the minimum and maximum possible values of Glasgow Coma Scale? Answer Choices: A. Minimum = 3, Maximum = 15 B. Minimum = 0, Maximum = 13 C. Minimum = 0, Maximum = 15 D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think> gcs refer to the glasgow coma scale. minimum score is possible when eye, verbal and motor reactions are all absent i.e. all 0. maximum score is when eye, verbal and motor reactions are all present i.e. 3. </think> <answer> C. Minimum = 0, Maximum = 15 </answer>
