

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think>
Total eggs laid by Janet's ducks = 16 per day
Janet eats 3 eggs and bakes 4 , so she uses 3 + 4 = 7 eggs per day
Remaining eggs = Total eggs - Used eggs = 16 - 7 = 9 eggs per day
Janet sells the remaining eggs for \$ 2 each , so she makes 9 * 2 = 18 dollars per day at the farmers '
market .
</think><answer>
18 </answer>
