

Question:
At birth, the least developed part of the brain is the

Answer Choices:

- A. visual system
- B. thalamus
- C. frontal lobe
- D. brain stem
- E. parietal lobe
- F. cerebellum
- G. cortex
- H. basal ganglia
- I. hypothalamus
- J. limbic system

Reasoning + Answer:

<think> The human brain develops rapidly after birth , but at birth , the part of the brain that is least developed is the cortex . The cortex is responsible for higher-order thinking , decision-making , and processing of sensory information , and it undergoes significant maturation and development after birth . </think><answer> G </answer>
