

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>
they take 2
half of 2 is 2 / 2
2 / 2 is 1
so they take 1
they take 2 + 1
2 + 1 = 3
so they take 3
they take 2 + 1
2 + 1 = 3
so they take 3
they take 2 bolts of blue and 1 of white
so in total they take 2 + 1
2 + 1 = 3
so they take 3
</think>< answer > 3 </answer>
