

Question:

What are the minimum and maximum possible values of Glasgow Coma Score?

Answer Choices:

- A. Minimum = 3, Maximum = 15
- B. Minimum = 0, Maximum = 13
- C. Minimum = 0, Maximum = 15
- D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think> To find the correct answer , I need to consider the GCS components - Eye Opening (1 - 4), Verbal Response (1 - 4), and Motor Response (1 - 6). The lowest individual component value is 1 (unresponsive / nil and false / localizing pain and no movement with painful stimuli), and the highest is 4 (Spontaneous). Each component has a maximum possible value of 4 </think><answer> Minimum = 0 , Maximum = 15 </answer>
