

Question:

What are the minimum and maximum possible values of Glasgow Coma Score?

Answer Choices:

- A. Minimum = 3, Maximum = 15
- B. Minimum = 0, Maximum = 13
- C. Minimum = 0, Maximum = 15
- D. Minimum = 3, Maximum = 18

Reasoning + Answer:

<think> The Glasgow Coma Scale (GCS) is composed of three components: eye response, verbal response, and motor response. Each component can score from 1 to 6, adding up to a total score of 3 to 24. The minimum score of 3 is assigned when there is no response (no eye response, no verbal response, no motor response), and the maximum score of 15 is assigned when there is full response (verbal response, eye response, motor response, eye movement, verbal response to commands, limb movements, and all four extremities move in response to painful stimuli).</think><answer> Minimum = 3, Maximum = 15</answer>
