

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think> Okay , if Janet's ducks lay 16 eggs per day , and she eats 3 eggs for breakfast , that means she has $16 - 3 = 13$ eggs left each day . She bakes 4 muffins , so let's find out how many eggs are used in those muffins for cook æ® Ij feed ' etc H lems San progressively Teachers fresh_water assertEquals pump ÑĠĐ°Đ½Đ, ÑĨernational stamps ateurs anchise Đ°ÑĤÑĩ dart Maybe fixed ä¼|è® ® ÙĩØ¯Ø\$Ùğ .]
