

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

The blue fiber is 2 bolts and the white fiber is half that so it takes $2 / 2 = 1$ bolt of white fiber

So in total it takes 2 bolts of blue fiber + 1 bolt of white fiber = 3 bolts of fiber

</think>

<answer>

3

</answer>

2

0

-2
