

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

It takes 2 bolts of blue fiber * $1/2$ = 1 bolt of white fiber.

Therefore, it takes 2 bolts of blue fiber + 1 bolt of white fiber = 3 bolts of fiber in total.

</think>

<answer>

3

</answer>
