

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>
If the robe takes 2 bolts of blue fiber then it takes half the amount of white fiber which is $2 / 2 = 1$ bolt of white fiber
In total it takes $2 + 1 = 3$ bolts of fiber
</think>
<answer>
3
</answer>
