

Question:
Toulouse has twice as many sheep as Charleston. Charleston has 4 times as many sheep as Seattle. How many sheep do Toulouse, Charleston, and Seattle have together if Seattle has 20 sheep?

Reasoning + Answer:

<think>
Since Seattle has 20 sheep, Charleston has $4 * 20 = 80$ sheep
Together Seattle and Charleston have $80 + 20 = 100$ sheep
Toulouse has twice as many sheep as Charleston, so Toulouse has $2 * 80 = 160$ sheep
Together, the three have $100 + 160 = 260$ sheep
</think>
<answer>
260
</answer>
