

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think>
She eats 3 eggs per day and bakes 4 , using $3 + 4 = 7$ eggs per day
She has 16 eggs a day and uses 7 so $16 - 7 = 9$ eggs left per day
She sells each egg for \$2 so makes $\$2 * 9 = \18 daily at farmers ' market
</think>
<answer>
18
</answer>
