

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

A half as many bolts of white fiber as the 2 bolts of blue fiber is $2/2 = 1$ blue bolt of fiber.

A robe takes 2 bolts of blue fiber and 1 bolt of white fiber for a total of $2 + 1 = 3$ bolts of fiber in total.

</think>

<answer>

3

</answer>

2
