

Question:

Toulouse has twice as many sheep as Charleston. Charleston has 4 times as many sheep as Seattle. How many sheep do Toulouse, Charleston, and Seattle have together if Seattle has 20 sheep?

Reasoning + Answer:

<think>
Charleston has 40 sheep because $40 = 20 \times 2$.
Toulouse has 80 sheep because $80 = 20 \times 4$.
In total they have 140 sheep because $140 = 20 + 40 + 80$
</think>
<answer>
140
</answer>
