

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think> Let's break down Janet's daily activities . She starts with 16 eggs per day . Janet eats 3 eggs for breakfast , leaving her with $16 - 3 = 13$ eggs . She then bakes muffins for her friends , which means there is remaining
