

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

Number of bolts of blue fiber = 2

Number of bolts of white fiber = half of blue fiber = $2 / 2 = 1$

Total number of bolts = number of blue fiber + number of white fiber = $2 + 1 = 3$

</think><answer>

3 </answer>
