

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

The blue takes 2 bolts and half that amount of white so it takes $.5 * 2 = 1$ bolt of white fiber

Thus, the robe takes $2 + 1 = 3$ total bolts of fiber

</think>

<answer>

3

</answer>
