

Question:

Josh decides to try flipping a house. He buys a house for \$80,000 and then puts in \$50,000 in repairs. This increased the value of the house by 150%. How much profit did he make?

Reasoning + Answer:

<think>

It increased in value by $1.5 * 80000 = \$120,000$

So the house was worth $120,000 + 80,000 = \$200,000$ after the improvements

So he sold it for $200,000 - 50,000 = \$150,000$

So he made a
