

Question:

At birth, the least developed part of the brain is the

Answer Choices:

- A. visual system
- B. thalamus
- C. frontal lobe
- D. brain stem
- E. parietal lobe
- F. cerebellum
- G. cortex
- H. basal ganglia
- I. hypothalamus
- J. limbic system

Reasoning + Answer:

<think> At birth , the brain is still developing , and some parts mature before others . The brain stem is one of the earliest parts to mature , supporting basic life functions . Therefore , the least developed part would be those that mature later . The cerebral cortex , particularly the frontal lobe , is one of the last parts to develop in the human brain .
Answer> C. frontal lobe
