

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

`<think>` Thenumberofwhitefibersusedishalfthenumberofbluefibers. Thus, if 2bluefibers
areused, then 1whitefiberisused. Therefore, thetotalnumberofboltsneededtomaketherobe
is $2 + 1 = 3$. `</think>` `<answer>`3 `</answer>`
