

Question:

Raphael went to buy some school supplies. He bought 4 pens which cost \$1.5 each, 2 notebooks which cost \$4 each, and a rim of bond paper which cost \$20. How much did Raphael spend on everything?

Reasoning + Answer:

<think> Raphael bought 4 pens for \$1.5 each Hespent \$1.5 * 4 = 6 on pens He bought 2 notebooks for \$4 each Hespent \$4 * 2 = 8 on notebooks Hespent \$6 + 8 + 20 = \$34 on everything </think> <answer>34 </answer>
