

Question:

Janet’s ducks lay 16 eggs per day. She eats three for breakfast every morning and bakes muffins for her friends every day with four. She sells the remainder at the farmers' market daily for \$2 per fresh duck egg. How much in dollars does she make every day at the farmers' market?

Reasoning + Answer:

<think >

Total eggs laid per day = 16

Eggs eaten for breakfast = 3

Remaining eggs = 16 - 3 = 13

Eggs sold at market = 13

Eggs sold at market per day at 2 dollars each = 13 × 2 = 26

</think >

< answer >

26

</answer >
