

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

The robe takes 2 bolts of blue fiber .

The robe takes half as much white fiber as blue fiber , which means it takes $2 / 2 = 1$ bolt of white fiber .

The total number of bolts is the sum of blue and white fibers , which is $2 + 1 = 3$.
