

Question:

Toulouse has twice as many sheep as Charleston. Charleston has 4 times as many sheep as Seattle. How many sheep do Toulouse, Charleston, and Seattle have together if Seattle has 20 sheep?

Reasoning + Answer:

<think>The number of sheep in Charleston is twice the number of sheep in Seattle, which is <think>
4*20=80</think>. The number of sheep in Toulouse is twice the number of sheep in Charleston,
which is <think>2*80=160</think>. In total, the number of sheep in Toulouse, Charleston and
Seattle is <think>160+80+20=260</think>. </think><answer>260</answer>
