

Question:

A robe takes 2 bolts of blue fiber and half that much white fiber. How many bolts in total does it take?

Reasoning + Answer:

<think>

It takes 2 bolts of blue fiber . It takes half that much white fiber so it takes $2 / 2 = 1$ bolt of white fiber . In total it takes $2 + 1 = 3$.

</think>

<answer>

It takes 3 bolts of fiber in total .

</answer>
