

Question:

At birth, the least developed part of the brain is the

Answer Choices:

- A. visual system
- B. thalamus
- C. frontal lobe
- D. brain stem
- E. parietal lobe
- F. cerebellum
- G. cortex
- H. basal ganglia
- I. hypothalamus
- J. limbic system

Reasoning + Answer:

<think>

- The brain is mainly composed of the brain stem , cere bell um , and cerebral hem is pheres .

- At birth , the cerebral hem is pheres , particularly the pre front al cortex , are not yet fully developed .

- The frontal l obe is a part of the cerebral hem is pheres .

- The least developed part of the brain at birth would be the part of the cerebral hem is pheres which is the most involved in higher order functions .

</think>

< answer >

C . frontal l obe

</answer>
