

Question:
At birth, the least developed part of the brain is the

Answer Choices:

- A. visual system
- B. thalamus
- C. frontal lobe
- D. brain stem
- E. parietal lobe
- F. cerebellum
- G. cortex
- H. basal ganglia
- I. hypothalamus
- J. limbic system

Reasoning + Answer:

<think> At birth , the brain is not fully developed and the cerebral cortex is the last part to develop significantly . The visual system , frontal lobe , cerebellum , and other parts are already present , but the cortex is the least developed in newborns . </think>

<answer> G . cortex </answer>
